

Product Data Sheet

Trio Cornice

Gyprock Trio features a dramatic three-step profile design with strong modern lines. This 75mm cornice delivers a striking presence for modern homes.

Product Overview

While cornice effectively bridges the junctions between walls and ceilings, its purpose extends beyond function, providing the perfect finishing touch to the aesthetic harmony of a home.

The strong, stepped profile of Trio echoes an Art Deco aesthetic and is also perfect for spaces that define modern elegance.

Balanced with other interior design features such as architraves, skirting and even door hardware, Trio cornice can help make a clear style statement in a home. For a more subtle impact in utility rooms and bedrooms, Gyprock Duo is the ideal complementary cornice choice.

Typical Applications

Trio's strong geometry makes it the perfect choice for modern living spaces or to help create an Art Deco feel.
