

Product Data Sheet

Pottery Plaster

Gyprock Pottery Plaster is used for the manufacture of moulds for sanitary ware as well as for general casting applications.

Product Overview

This plaster is grit free with a short setting time and is ideal for toilet and wash basin moulds.

It is a low VOC plaster manufactured by Gyprock in Australia to stringent product specifications and packed in an orange coloured bag.

Any moulds used should be cleaned and coated with a release agent before use.

Typical Applications

Pottery Plaster is typically used to create moulds for sanitary ware and general casting applications.

Physical and chemical properties

Specific gravity (H ₂ O=1)	2.4 approx.
VOC content (as specified by GBCA)	<10 grams per Litre as VOC content per material

Product Manufacture

Pottery Plaster is manufactured by CSR Gyprock in Australia to stringent product specifications.

Product Handling

Transportation and manual handling: Refer to the Gypsum Board Manufacturers of Australia (GBMA) website for recommended OH&S practices.

Storage: Store bags in a dry environment, protected from the weather and out of direct sunlight. Tear bag open from top corner to dispense compound. Unused product which has been mixed with water should be discarded. Unused product in powder format should be stored in original bag; roll the top of the bag to loosely seal, and store in an airtight container.

Health and Safety

Safety Data Sheets are important documents in the construction industry and assist in the continuing focus on occupational health and safety on and off sites.

Resources

Gyprock makes available **resources** that provide comprehensive selection, design, installation and maintenance guidance.

Manufactured for Life

Gyprock products are manufactured for life with all CSR products designed to achieve optimal performance when part of a CSR integrated system.

GECA Accredited

Verified by an independent conformity assessment body to meet the environmental, health and social/ethical criteria of the GECA Adhesives, Fillers & Sealants standard.

Certified Low VOC

Exceeds the GBCA specification for Volatile Organic Compound content according to independent testing.
